June 18, 1983

Mr. Harold Weisberg
Frederick, Maryland
Route 8

Dear Mr. Weisberg:

With you and many others I have been interested for a long time in making sense from the seeming contradictions and just plain ineptness of assassinations investigations.

I recently saw that new material, carefully obliterated, has been released but I am weary of this and do not plan to work with it longer. I study interesting things for a hobby but prefer

All the text be legible.

I have the following in my bookcases which I will be glad to give to someone who will use them and thought perhaps you would have a suggestion. A great deal is underlined but anyone who knew what they are doing will be able to put their own emphasis where they want it.

I have all 10 volumes of the House Report on Martin Luther King, plus the Appendix - Volume X I; and the Final Report - Findings and Recommendations.

Mark Lane's Rush to Judgment.

Assassination of JFK by Coincidence or Conspiracy? Directions of Bernard Fensterwald Jr., Kensington, 1977. (Committee to Investigate Assassinations.)

Gun Drama up.

Scott, Hoch, Stetler. The assassinations. Vintage 1976.

Incidentally, the Chevy Chase D.C. Public Library had only one volume of your whitewash which they had borrowed from Cleveland Park. It seemed to have been out

continuously for two or three months. The check out slip was new and did not go back very far.

I would appreciate a note from you even if you have no suggestions so I may offer them to someone else. I hope you are staying with it.

Sincere good wishes,

Mary Stanford King
